

ULTRA METROBUS LF25

THE LARGEST METROBUS IN THE WORLD

The largest in the line of AKIA city buses.

The high-speed metrobus ULTRA LF25 is a guarantee of speed, reliability and high carrying capacity. Metrobus ULTRA LF25 can also be produced not only with diesel, but also with a hybrid power plant.

Metrobus ULTRA LF25 is one of the largest metrobuses, which has no analogues in the whole world. It reaches 25 meters in length and has a total passenger capacity of up to 300 people.
